

Write-Ahead Log for Recovery

 This is a legacy version of the Mini-LSM course and we will not maintain it anymore. We now have a better version of this course and this chapter is now part of:

- [Mini-LSM Week 2 Day 5: Manifest](#)
- [Mini-LSM Week 2 Day 6: Write-Ahead Log \(WAL\)](#)

We did not finish this chapter as part of Mini-LSM v1.

Your feedback is greatly appreciated. Welcome to join our [Discord Community](#).
